

# E-Ride Responsibly

**E-SCOOTERS, E-BIKES, ETC...  
DO NOT OPERATE INSIDE  
ANY UML BUILDING**

## Obey Traffic Laws and University Rules

- Park outside on designated bike racks.
- Ride primarily on the road with the flow of traffic, observe stop signs and traffic lights.
- Utilize bike lanes and shared paths where possible.
- Park or store equipment in ways that do not obstruct paths, exits, or limit access to public areas.

## Be Visible and Alert

- Use front white light and rear red light, mounted to the vehicle or rider at night.
- Stay aware! Don't use your phone and headphones while riding.

## Be Courteous and Predictable

- Use verbal prompts, hand signals and eye contact to communicate with others.
- Dismount in congested pedestrian areas and ride at walking pace on sidewalks.

## Protect Yourself and Your Equipment

- Wear a helmet while riding, every time!
- Use a U style lock, not a cable when securing to a bike rack.

## Prevent Fires

- Stop using it if you notice any problems with the battery: unusual odor, change in color, too much heat, change in shape, leaking, smoking, or not keeping a charge. Never leave your equipment charging while unattended.
- Use only original devices, batteries and charging equipment that are listed by a nationally recognized testing lab. Always follow the instructions from the manufacturer.

*Register your equipment with UMASS Lowell!*
